HEALTHCARE WHERE YOU NEED IT

## MOBILE DENTAL CLINICS

# WHAT IS A MOBILE DENTAL CLINIC?

**Odulair Mobile Dental Clinics are specialized medical vehicles built to deliver reliable on-site dental care services safely, efficiently, and with low operational costs.**

**The convenience and practicality that Odulair Mobile Dental Clinics offer can easily benefit every population segment, from underserved groups to children in school to professionals at the job site to the elderly in retirement homes.**

**Odulair manufactures dental clinics on different platforms, including:**

## MOBILE DENTAL VANS

## MOBILE DENTAL TRUCKS

## MOBILE DENTAL TRAILERS

## MOBILE DENTAL BUSES

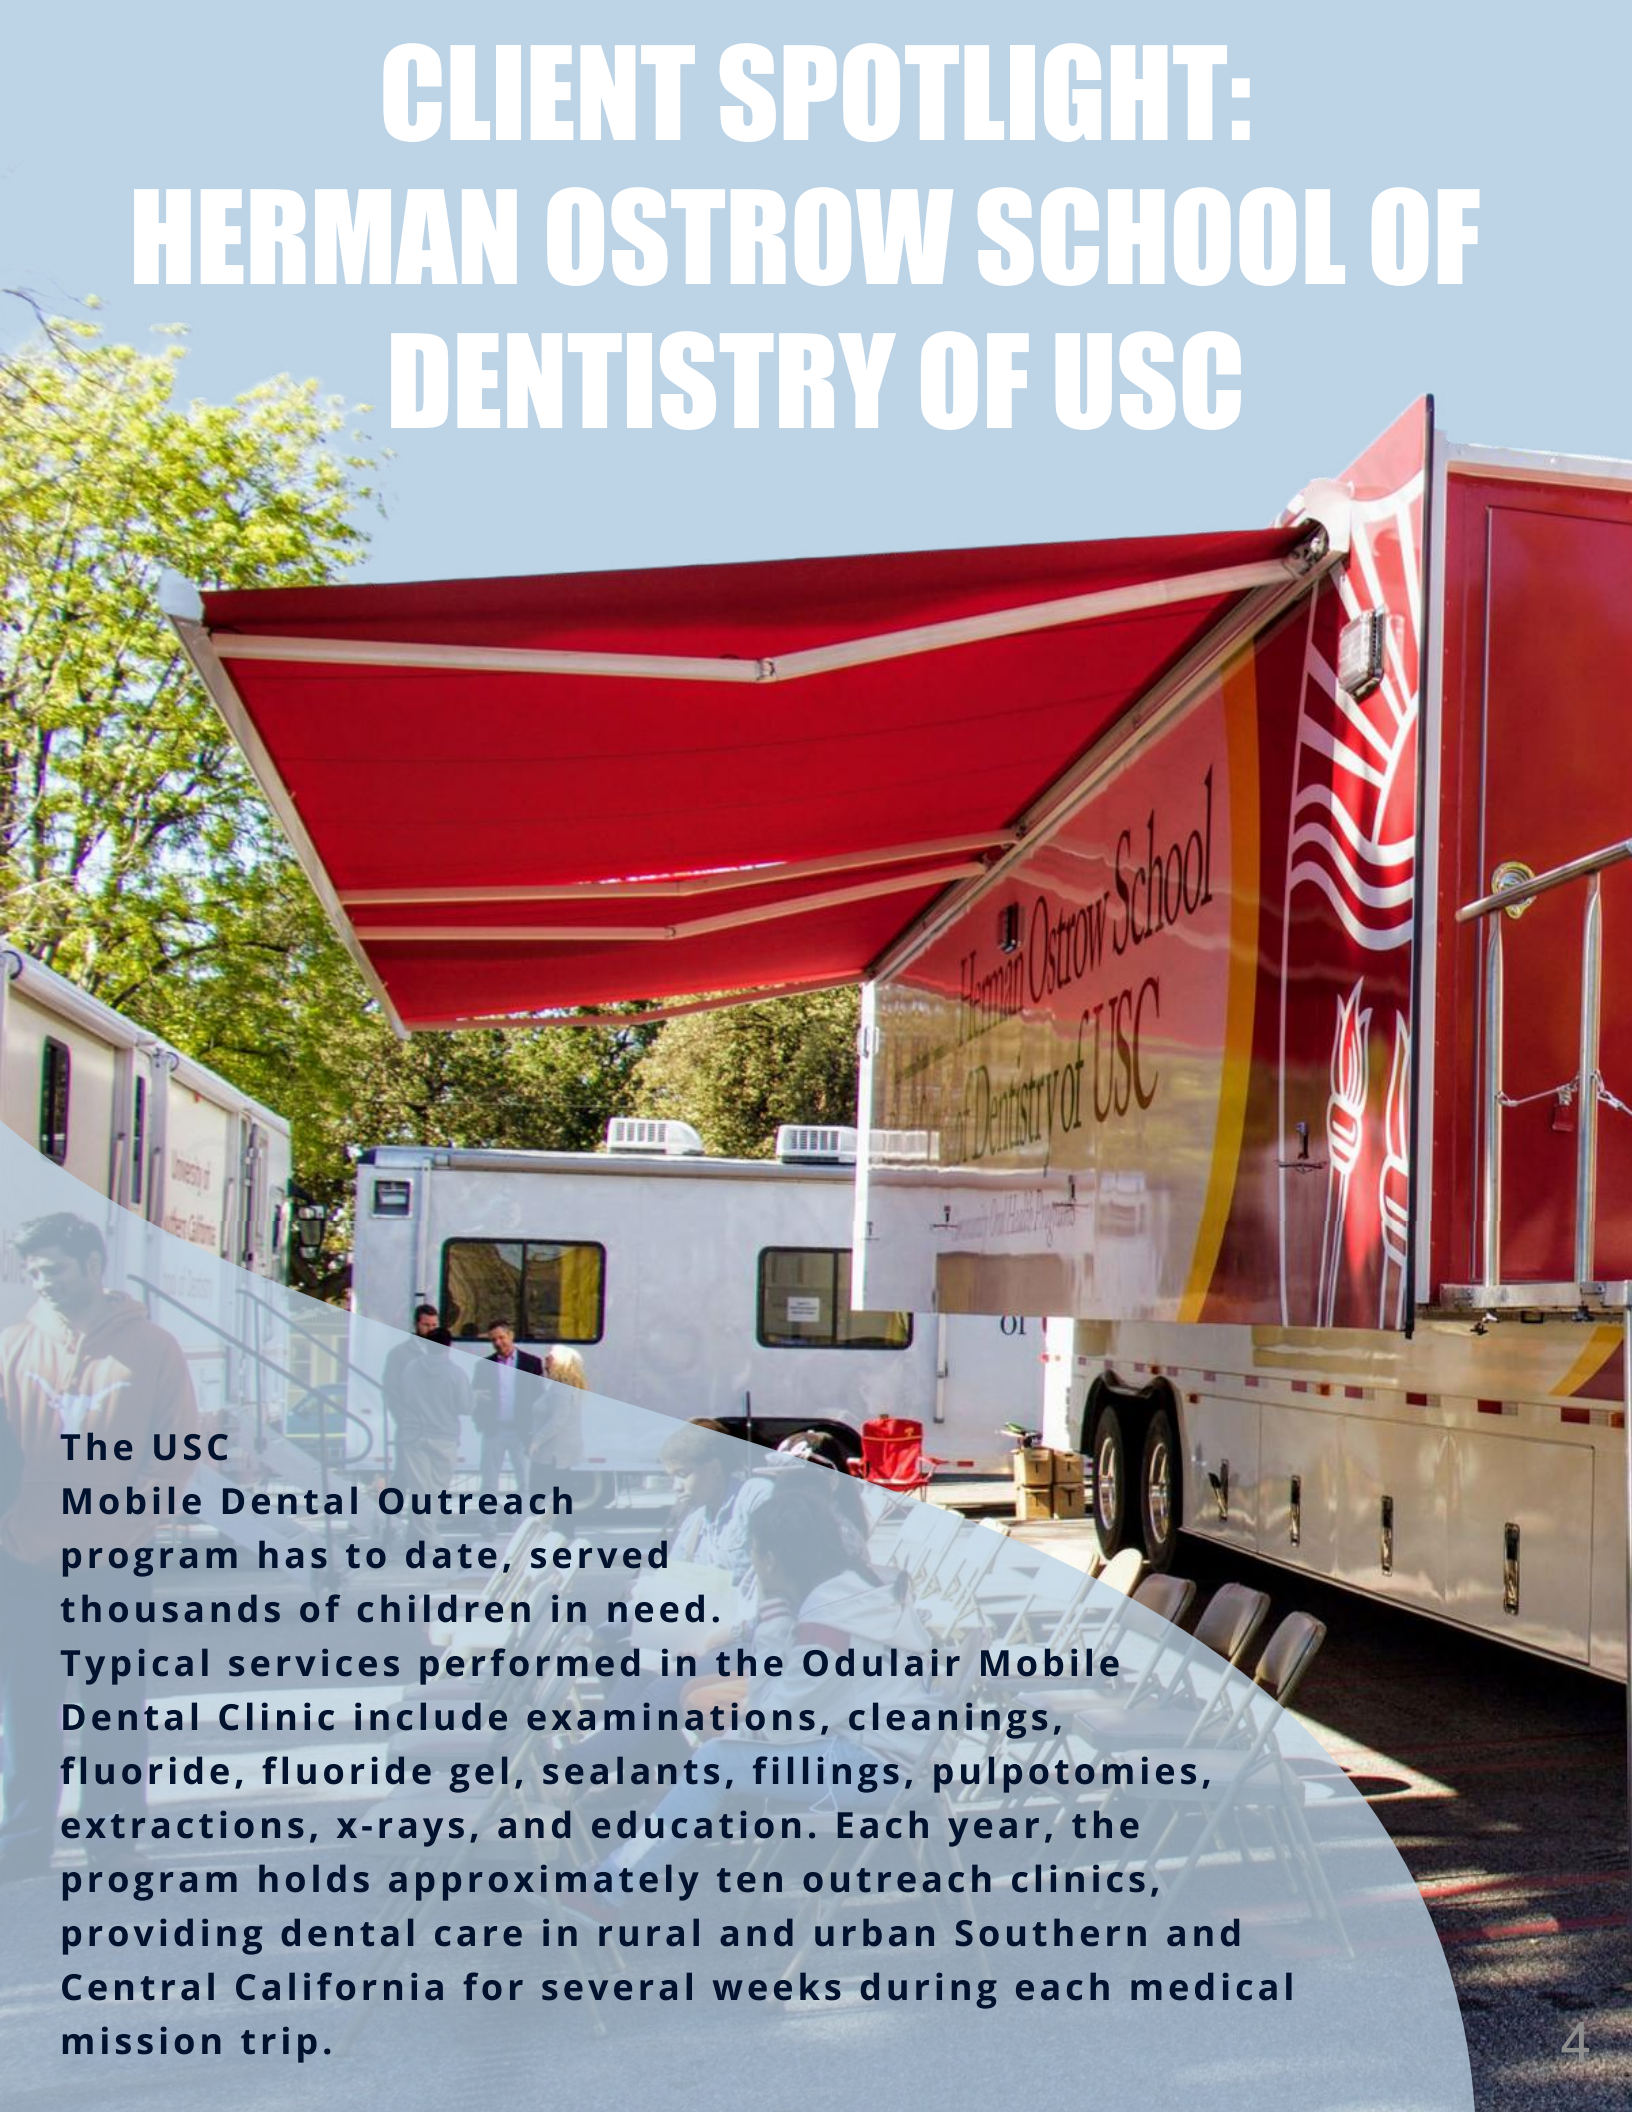

## DENTAL CLINIC KIOSKS

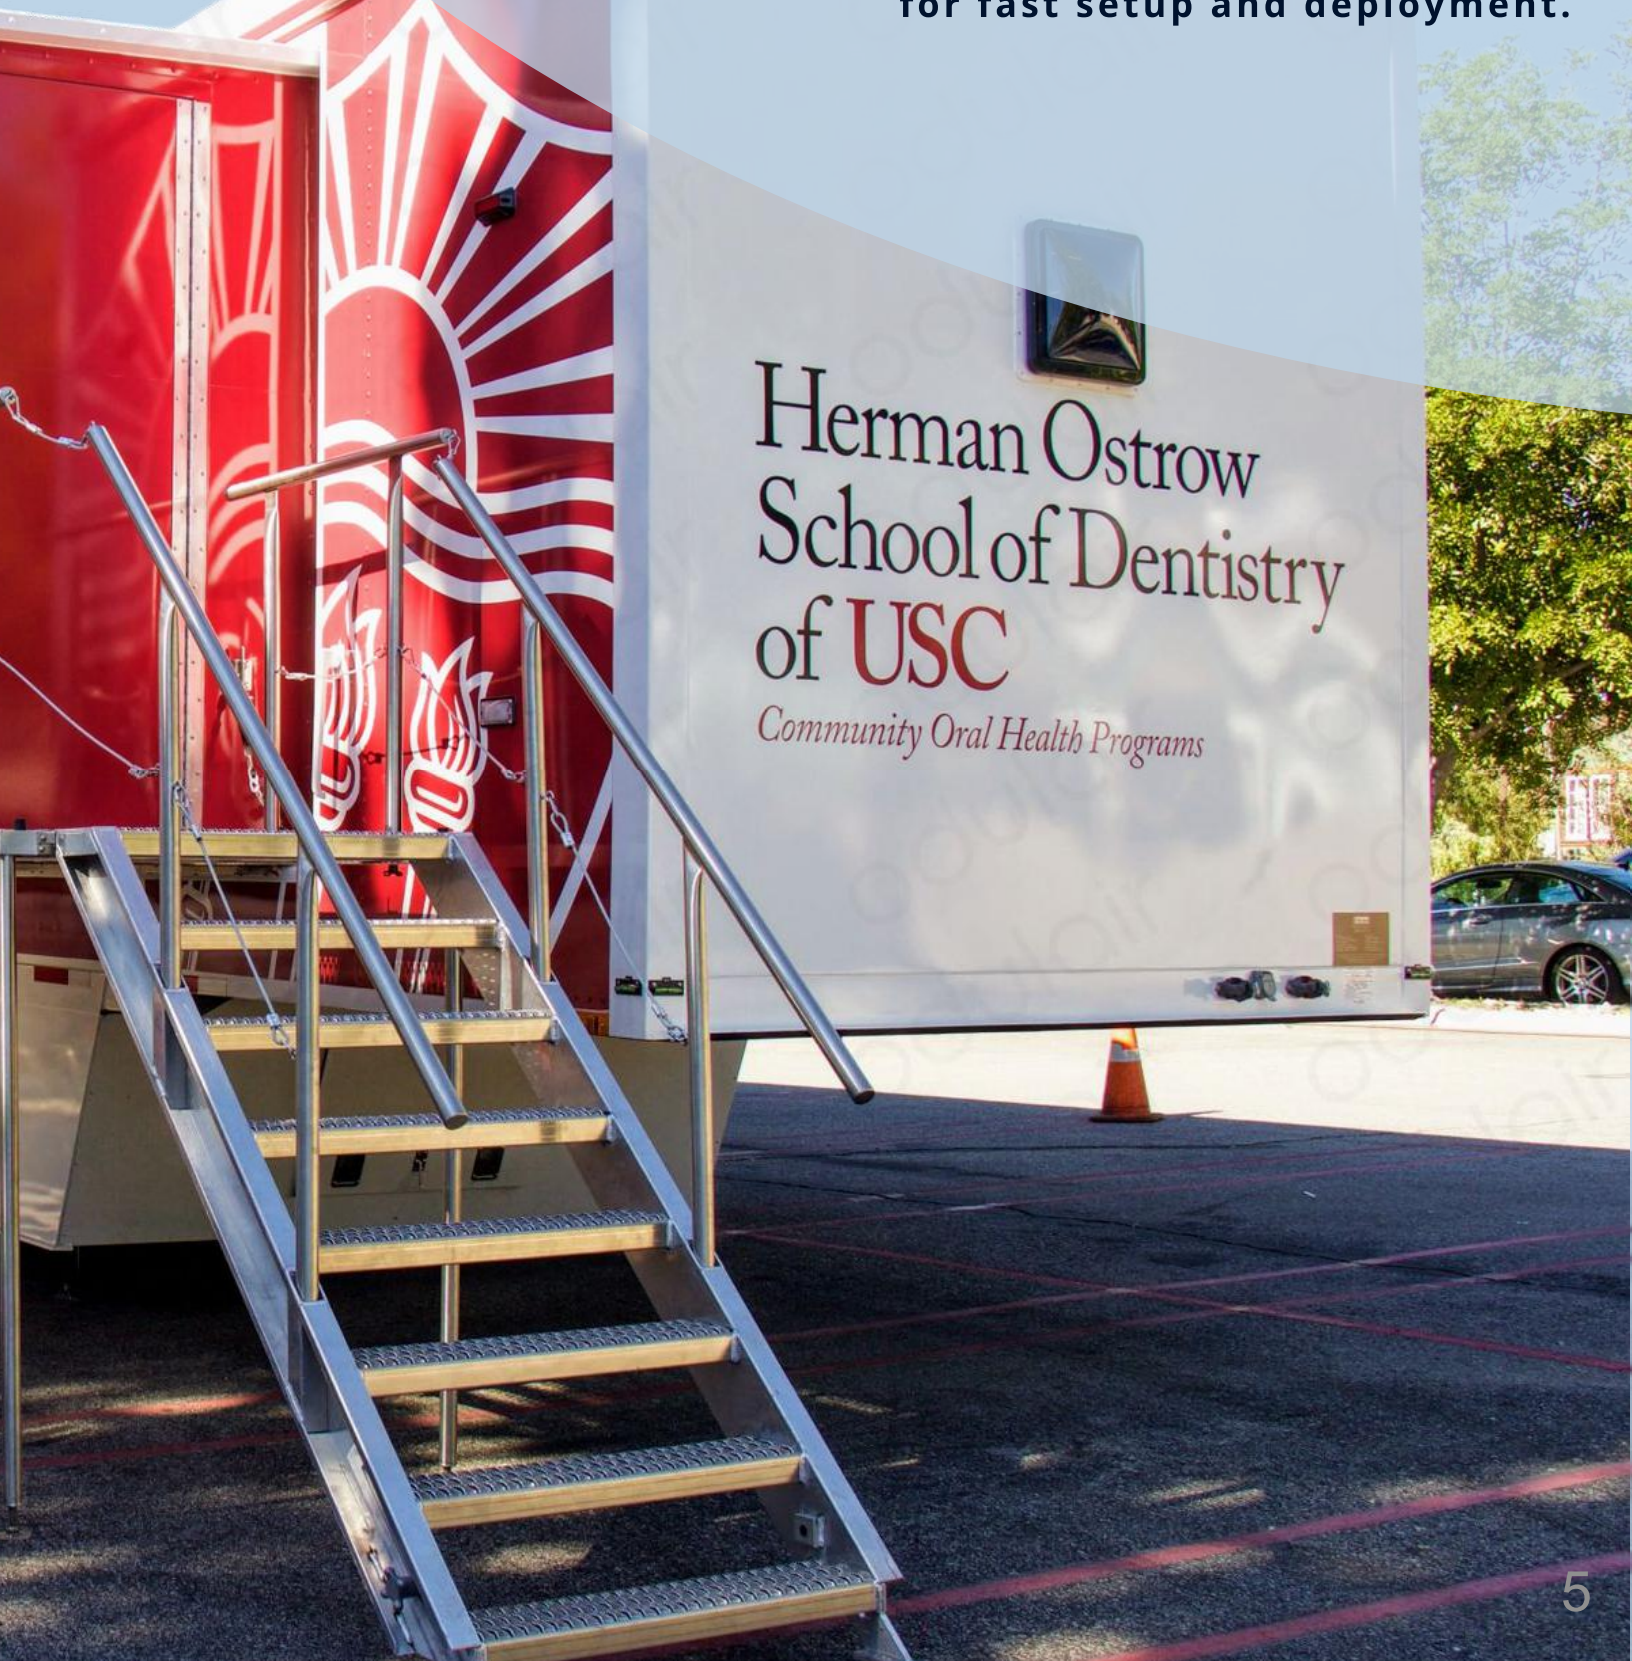

# CLIENT SPOTLIGHT: HERMAN OSTROW SCHOOL OF DENTISTRY OF USC

The USC Mobile Dental Outreach program has to date, served thousands of children in need. Typical services performed in the Odulair Mobile Dental Clinic include examinations, cleanings, fluoride, fluoride gel, sealants, fillings, pulpotomies, extractions, x-rays, and education. Each year, the program holds approximately ten outreach clinics, providing dental care in rural and urban Southern and Central California for several weeks during each medical mission trip.

**USC chose Odulair to design, engineer, and manufacture their latest and largest Mobile Dental Clinic trailer based on the Company's unique expertise in high-quality mobile medical facilities, clinical practice, and innovative designs. The massive area provided by the 48 ft double expandable trailer was designed and built for fast setup and deployment.**

# MOBILE DENTAL TRAILER

Leading the delivery of mobile dental outreach programs in the United States, The Herman Ostrow School of Dentistry at the University of Southern California (USC) in Los Angeles has, for over 50 years, implemented a successful mobile medical outreach program.

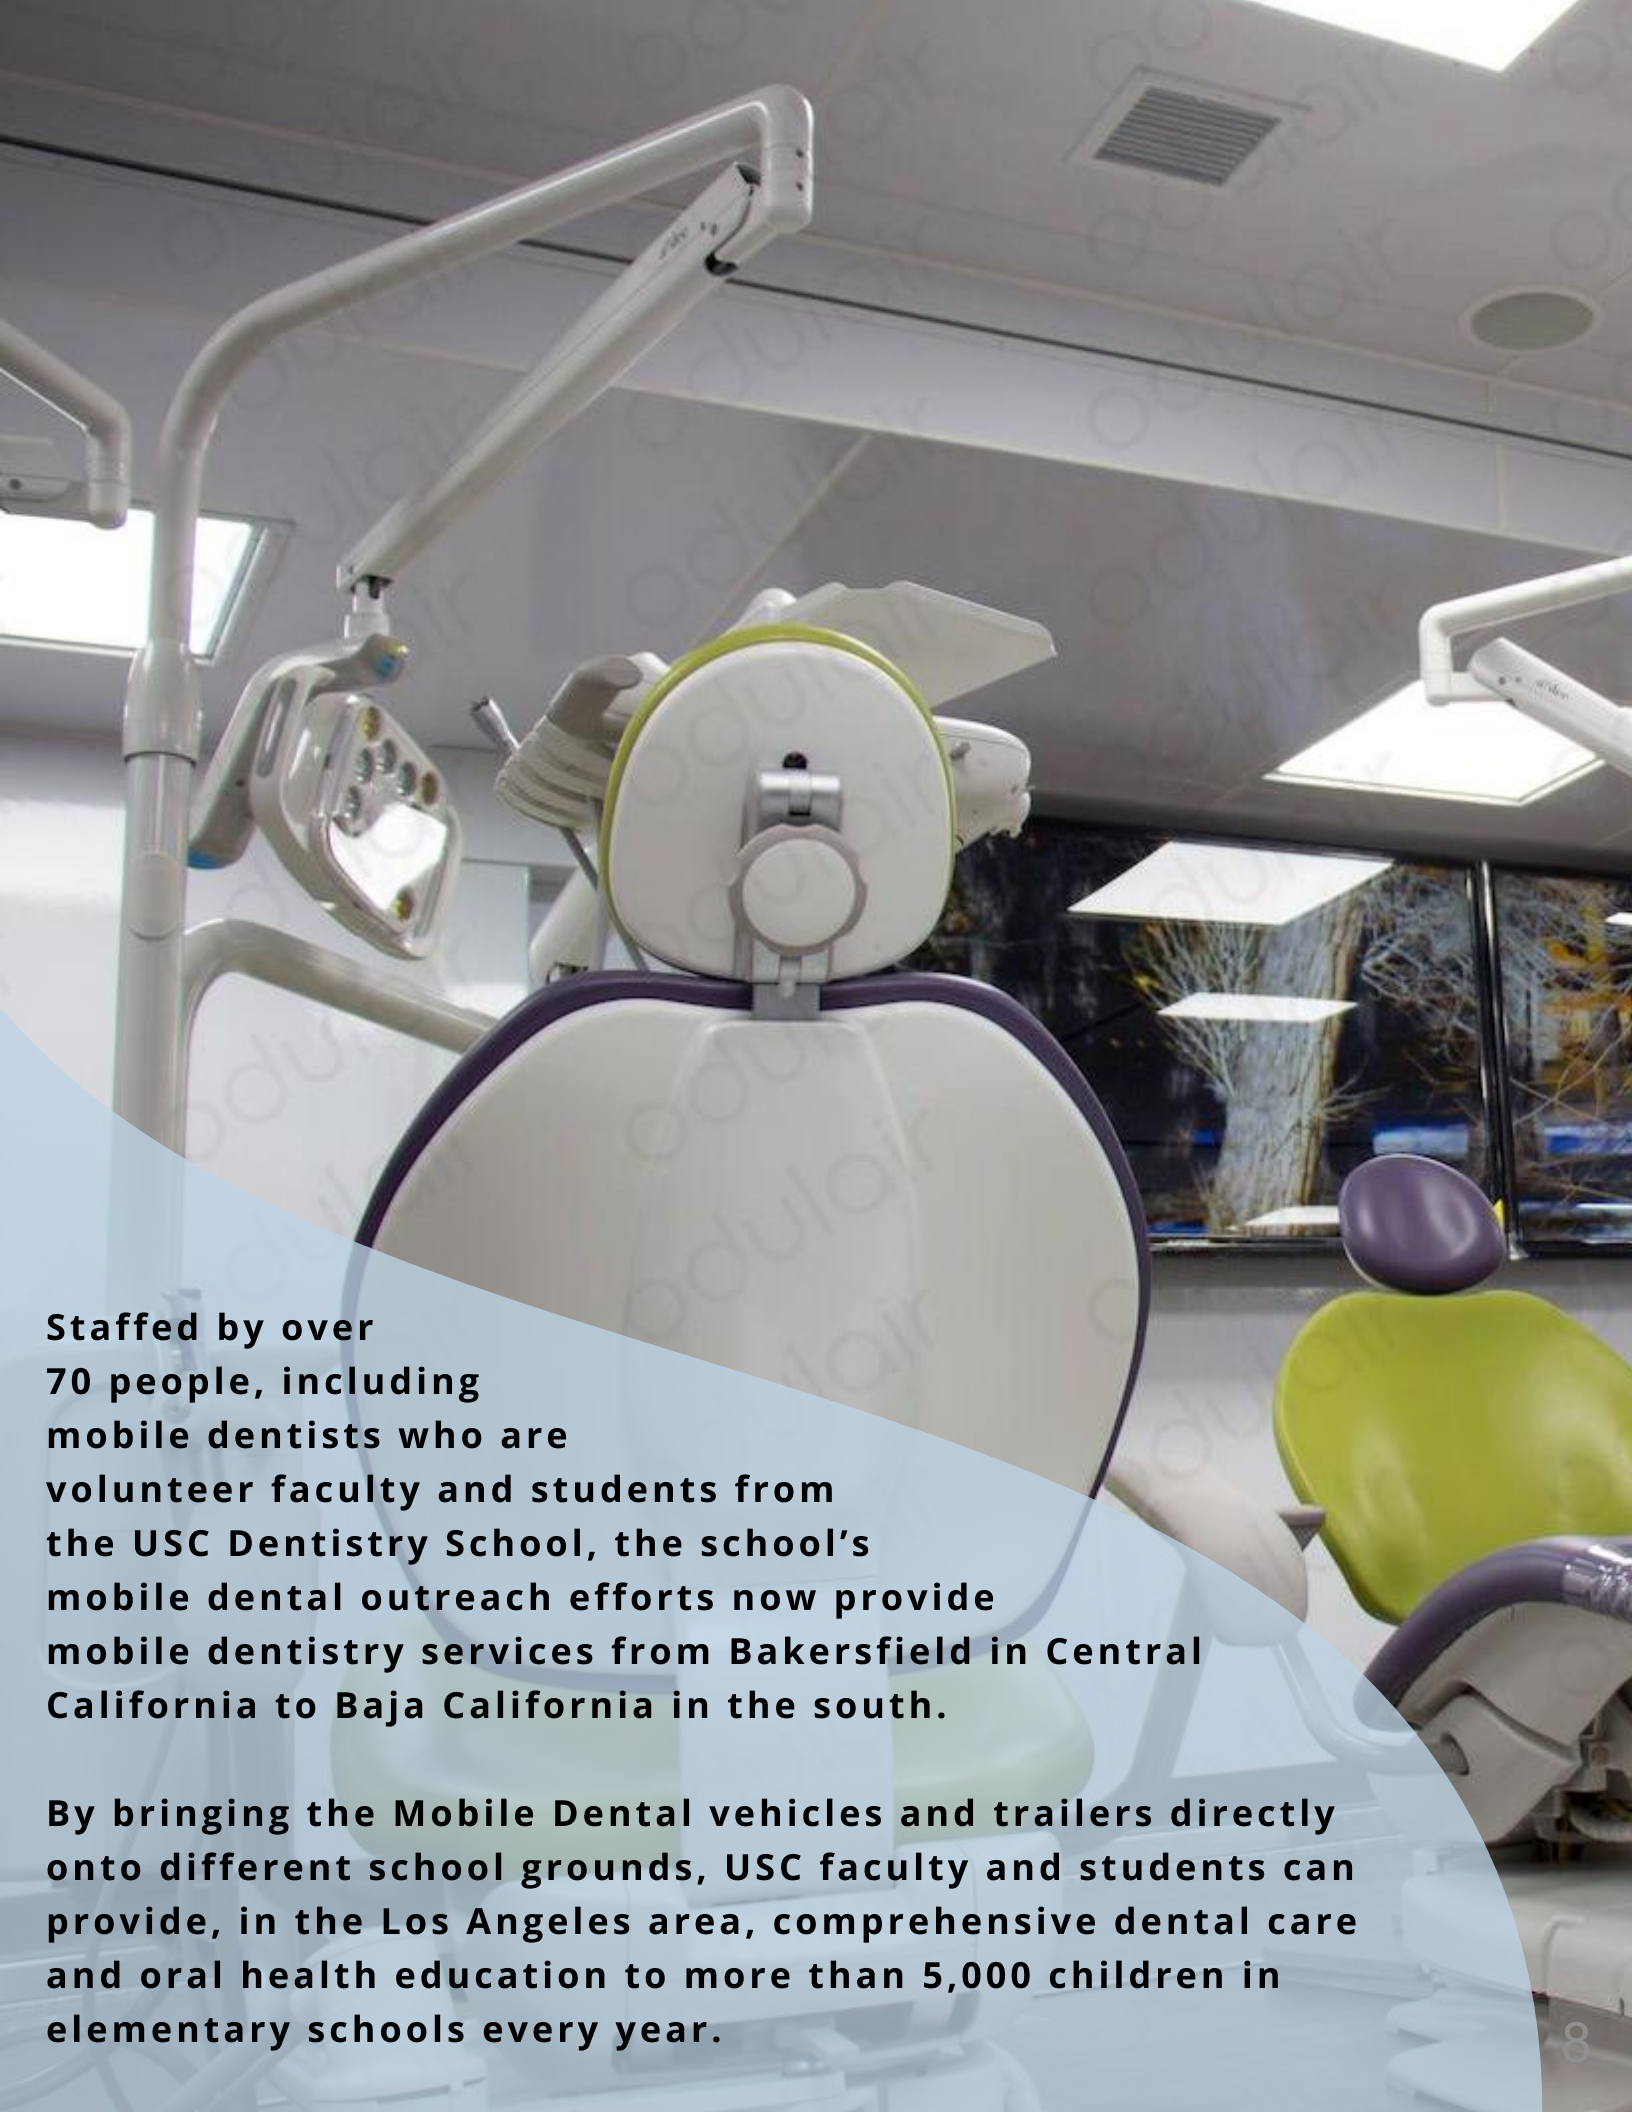

# R 48 FT

Today, it is the largest dental outreach program in the US and the world, continuing to deliver free dental care through its pioneering work in mobile dentistry.

Operating from school and church parking lots, both in urban and remote rural California, USC mobile dental clinics offer an invaluable service and represent a major community asset in the state.

**Staffed by over 70 people, including mobile dentists who are volunteer faculty and students from the USC Dentistry School, the school's mobile dental outreach efforts now provide mobile dentistry services from Bakersfield in Central California to Baja California in the south.**

**By bringing the Mobile Dental vehicles and trailers directly onto different school grounds, USC faculty and students can provide, in the Los Angeles area, comprehensive dental care and oral health education to more than 5,000 children in elementary schools every year.**

**The new USC Mobile Dental Clinic by Odulair includes eight dental chairs, an on-board lead lined x-ray room, custom cabinetry, antibacterial surfaces, medical grade flooring, air conditioning, two multi-screen video walls, and entertainment package, LED lighting, and plenty of storage for consumables**

# CLIENT SPOTLIGHT: QUEENSCARE

**As the largest mobile dental clinic in the nation and the world, with a total of 960 sq. ft. of space, the Odulair Queenscare trailer has six dental chairs and an x-ray room. The mobile dental program is one of QueensCare's highly successful annual community health programs, which last year served more than 2,000 children, with 14,763 procedures performed at eleven Los Angeles area schools.**

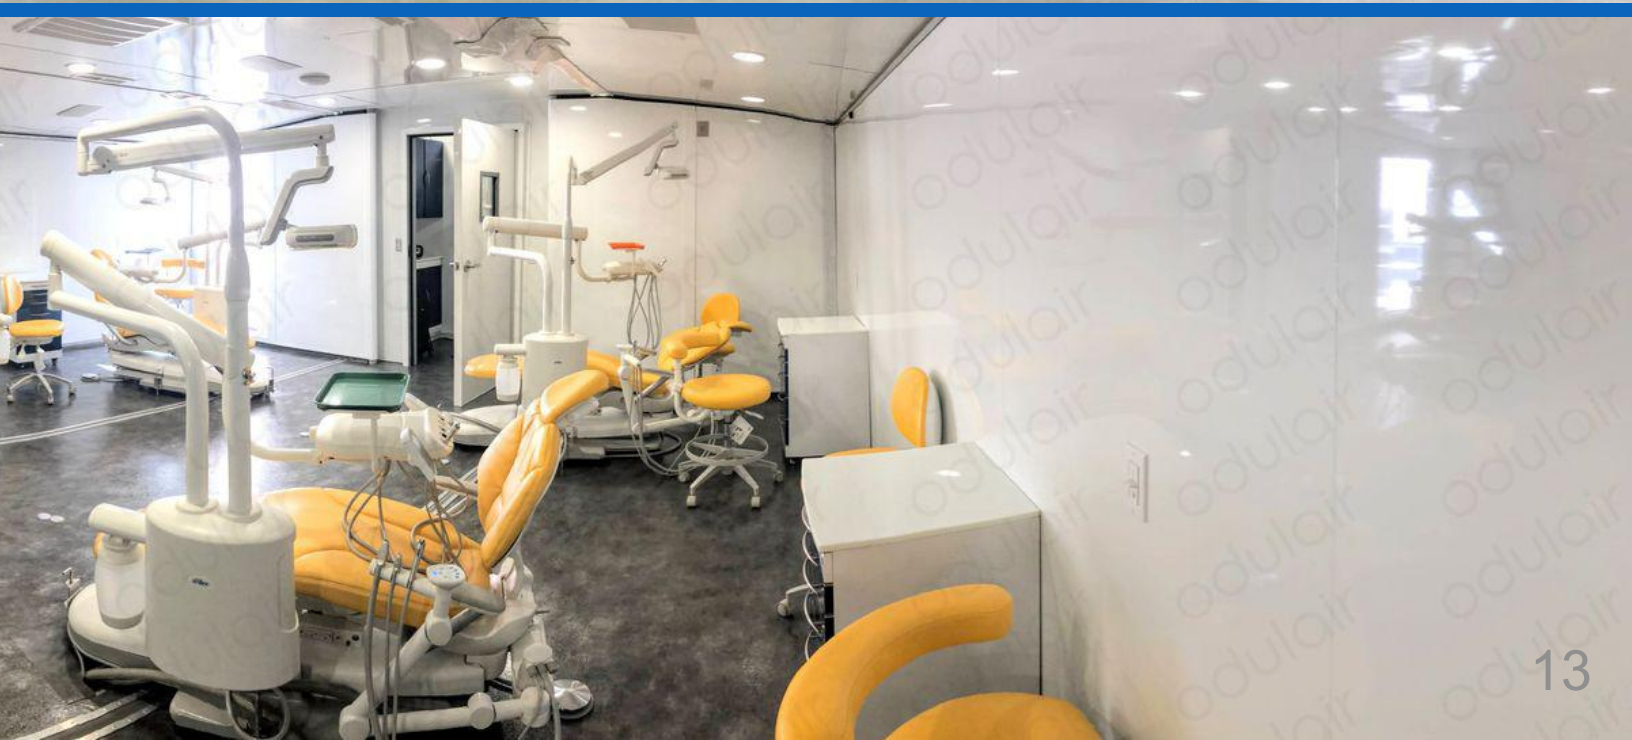

# MOBILE DENTAL TRAILER 53 FT

# MOBILE DENTAL TRUCKS

## 18FT

# CLIENT SPOTLIGHT: GHANA MINISTRY OF HEALTH

**Odulair is recognized for unwavering customer support. We deliver anywhere in the world, provide on-site training, and hold technical support 24/7. A nationwide Mobile Medical Outreach program by the Ministry of Health in Ghana, West Africa, chose Odulair mobile clinics because of their reliability, and local support.**

**The different mobile clinics offer a variety of medical services, including, dental, primary care, ophthalmology, and ear, nose, and throat (audiology) services. The Odulair mobile clinic trucks travel between the different regions of the country in a convoy, and once on site, they can deliver the services equivalent to those found in a traditional hospital or polyclinic facility.**

# Govt inaugurates mobile clinics

**Story: Mary Mensah**

**EIGHT Mobile Specialist Clinics and 10 Biometric Maintenance Vans have been inaugurated.**

The clinics, two each for Ear and Nose, Eye, Dental and General Medicine will start operations from next month and will cover all the country.

They will move from one region to the other caring for the sick and will stay at a place for a month or more before moving to another region.

In a speech read on her behalf to launch the mobile clinics, the First Lady, Mrs Lordina Mahama, said that the intention behind incorporating a fully equipped mobile clinics into Ghana's healthcare delivery system was to elevate and advance the capabilities of the existing outreach programme.

She indicated that the vans would take healthcare delivery onto the doorsteps of the people, especially those in the remotest areas.

The First Lady said the mobile clinics formed part of the National Medical Equipment replacement Project, which seeks to replace obsolete equipment at the government hospitals, among others interventions.

She said an important responsibility, which people in positions of national leadership must never lose sight

of, was the empowerment of the most vulnerable of the citizenry, whose daily difficulties and challenges should never be ignored.

Mrs Mahama said "what we become as a nation was dependent upon our capacity to do this".

She said in the unique Ghanaian setting, fellow-feeling, hospitality and care for the extended family make Ghana unique in a world of keen competition and where the poorest in society are exposed to the harsh realities of the times.

According to the First Lady, empowering the poorest in society means creating the necessary environment, circumstances and giving them the opportunity to take hold of their own destiny.

For her part, the Minister of Health, Ms Sherry Ayittey, commended the suppliers Belstar Development Corporation and the manufacturers Odulair LLC, both from the United States, for the detailed planning and modelling of these specialists equipment, which came with their own complete power supply system.

She expressed her appreciation to the US government, the Overseas Private Investment Corporation and the Dueche Bank of New York for the splendid outcome of their partnership with the government for the benefit of Ghanaians.

## President Mahama to launch mobile medicare "Onuador"

EUROPA |

The Mobile Clinic service is expected to cater for general medical care, dentistry, ophthalmology and audiology.

Mobile medicare, "Onuador"

The Ministry of Health will on Wednesday, September 16 2015, launch a National Medical Outreach Services dubbed "Onuador" as a means of bringing healthcare to the doorsteps of Ghanaians.

The Odulair-based National Outreach Program with the Ministry of Health and the National Ghanaian Health Services has greatly contributed to the improvement of the health of the Ghanaian population at large, from schools to churches to prisons.

Dr. Anita Chambers, Odulair CEO, with President of Ghana, His Excellency, John Dramani Mahama, Takoradi, Ghana

# MOBILE DENTAL Q&A

## DO MOBILE CLINICS HAVE TO HAVE A MAILING ADDRESS?

There is no single, direct answer to this. Each state has its policy on mailing addresses for mobile dental. Although in most states, the operator of a mobile dental unit must maintain an official mailing address.

## DO YOU HAVE TO BE LICENSED TO DIRECT A MOBILE DENTAL CLINIC?

Each state has its unique requirements and licensing organization. Often the requirements include the mobile dental clinic registering with the state and paying annual fees, providing documented procedures, and including mandatory design features. This may include onboard toilet facility access, a sterilization system, wheelchair access (ramp or lift), and other requirements. In addition, many states require the mobile dental clinic to be owned and operated (in full or majority ownership) by a dentist licensed and in good standing with the applicable state.

A woman with dark hair tied back, wearing a black and yellow Odulair polo shirt and blue jeans, stands with her hands on her hips next to a white mobile dental clinic van. The van has the Odulair logo and the words 'Mobile Dental Clinic' visible on its side. The background is a light blue gradient with a large, faint Odulair logo.

## **HOW MUCH DOES A MOBILE DENTAL CLINIC WEIGH?**

Mobile Dental Clinics can vary in weight depending on the vehicle's dimensions and the number of dental operatories. According to Federal standards, for motorized mobile clinic solutions like dental vans or dental trucks, as long as the gross vehicle weight rating (GVWR) is less than 26,000 pounds, you do not need a commercial driver's license (CDL) to operate. Odulair Mobile Dental Clinics are designed with this regulation in mind and are weighed several times during manufacturing to ensure safety standards and federal regulations.

## **HOW MANY EMPLOYEES DOES A MOBILE DENTAL CLINIC HAVE?**

Depending on the size of the unit, a mobile dental clinic van or truck can have as low as one (1) employee, and up to five (5) for something as big as a 30 ft mobile clinic truck model. Common staffing setup for a two (2) operatory mobile dental clinic truck or trailer is a team of 4 people consisting of (1) driver / coordinator, (1) dentists, and (2) hygienists/assistants.
